00:59:45 jerrihusch: what was your resource/funding strategy to get this going?
01:01:53 David Kay: What criteria does Growing Greener prioritize or look for in working with and/or looking for partners?
01:04:19 Alex Kosmider: Is this talk that you just gave enough training for us to do host these workshops or do you offer a training?
01:04:39 Scott Laursen (PI-CASC, Hawai'i Island): Wonderfully engaging presentation and material Mick! Thank you! are you working on sustaining workshop networking relationships through time after your materials are delivered in specific locations?
01:06:15 Gary J Wyatt: Awesome project! Thanks!
01:07:47 Paul Lachapelle (he/him): Can you talk about collection action strategies in light of the criticism that exists of companies like BP deflecting corporate responsibility? Ex. <https://www.theguardian.com/environment/true-north/2017/jul/17/neoliberalism-has-conned-us-into-fighting-climate-change-as-individuals> and <https://mashable.com/feature/carbon-footprint-pr-campaign-sham>
01:09:54 David Kay: Mick, I see in your approach as just described some applications of first principles of community development.
01:10:37 Paul Lachapelle (he/him): Yes, collective action strategies :)
01:10:59 jerrihusch: Mick, can you give your email again? Thank you
